Professional Development
Montana Writing Project

Partners

Montana University System

The Office of the Commissioner of Higher Education hosts the Executive Board meetings and appoints members to committees involved with admissions standards.

Office of Public Instruction

OPI hosts MATELA's website and calls upon members to work on standards and assessments.

Montana Writing Project

MWP builds a network of professional advocates. A school district can call upon these highly qualified workshop presenters to conduct writing workshops and curriculum in-service programs for professional development.

Association of Gifted and Talented Educators

AGATE has partnered with MATELA, educators, and the Montana Arts Council since 1989 to publish Signatures from Big Sky.

Montana Heritage Project

MHP makes local culture relevant and meaningful to students engaging in original research. Working closely with faculty and community experts, young people conduct interviews, library and field research, and present their findings to the community. Project teachers also present at conferences and in schools. You may submit students' work for publications, apply for a grant, attend the Youth Heritage Festival in Helena, and subscribe to Heritage Education magazine by visiting www.edheritage.org.
